

GlobalPros.ai

Meeting IT Talent Acquisition Partner Challenges in 2024 and Beyond

The AI / ML Solution
Revolutionizing Tech Recruiting

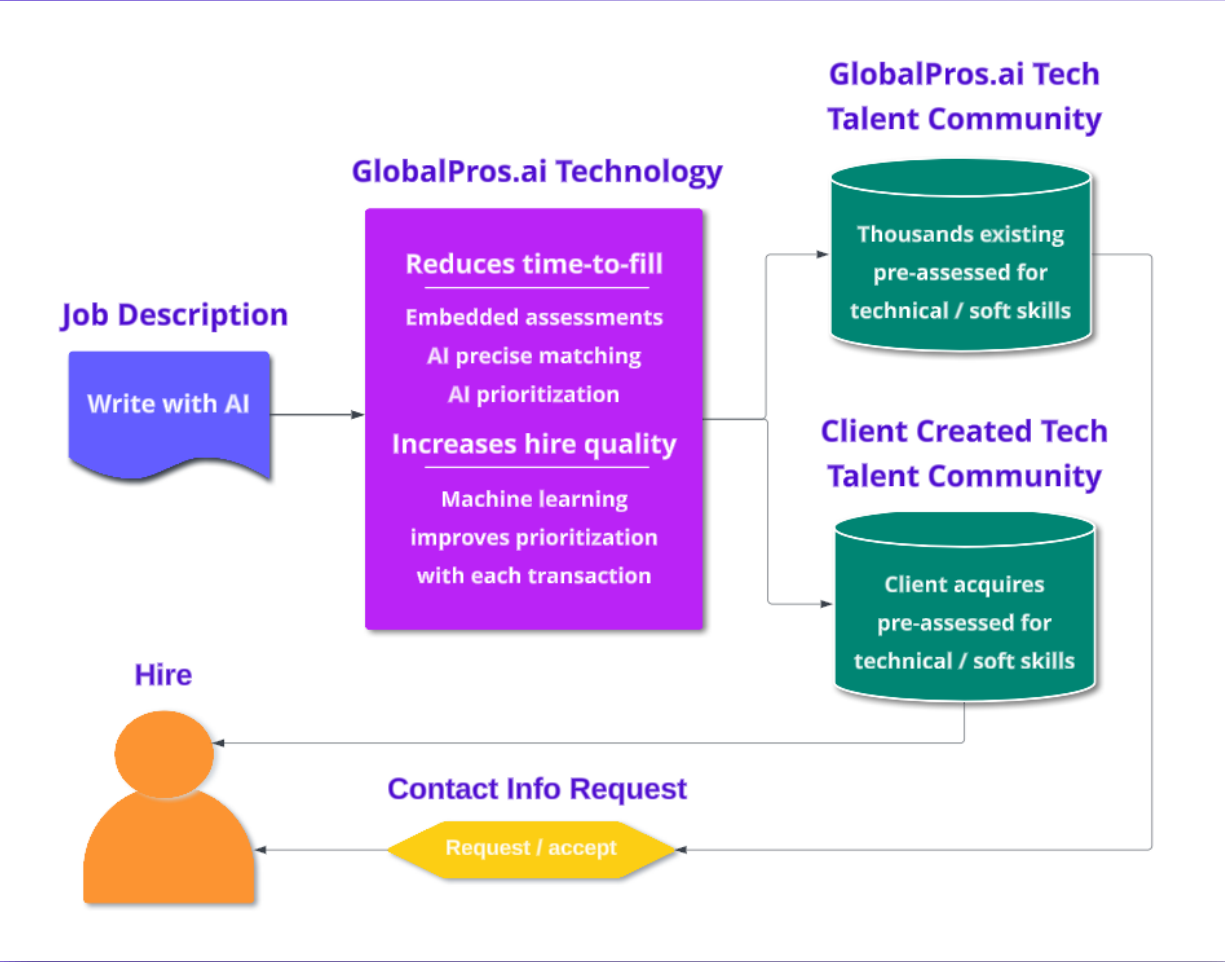

GlobalPros.ai

- SaaS AI / ML powered platform.
- Reduces time-to-fill by up to 90% + perpetually increases hire quality.
- Delivers a substantial curated global Community of pre-assessed tech talent.
- Offers ability to create a curated in-house community of pre-assessed tech talent.

GlobalPros.ai SaaS Platform

Challenge

Declining revenue and profit margins

GlobalPros.ai solution:

By substantially reducing time-to-fill, our AI and machine learning powered platform with pre-assessed candidates enables agencies and RPO providers to close more placements in less time, increasing potential revenue and margins.

Challenge

Increased competition: talent oversupply, slowing demand

GlobalPros.ai solution:

The ability to consistently deliver high-quality hires in record time is a compelling value proposition that can set you apart from your competitors, allowing you to maintain and even increase margins, as well as win new business and retain existing clients.

Challenge

Client dissatisfaction from extended time-to-fill

GlobalPros.ai solution:

Our platform helps ensure client satisfaction by using AI and machine learning to dramatically accelerate the sourcing and evaluation process as well as perpetually improving hire quality with each placement.

Challenge

Bad hires damage brand equity increase costs

GlobalPros.ai solution:

Using AI based on first party data to ensure accurate matching and ranking, and machine learning to perpetually improve hire quality with each placement, our platform helps to preserve brand equity and reduce lost revenue from bad hires.

Challenge

Decreased recruiter morale

GlobalPros.ai solution:

Our platform's AI boosts recruiter job satisfaction and reduces turnover by eliminating the repetitive, time-consuming manual tasks of sourcing, reviewing, matching and ranking resumes, allowing staff to focus on high-value activities like relationship building.

Challenge

Data security

GlobalPros.ai solution:

- GlobalPros.ai has a comprehensive data security policy which includes data handling procedures, access controls and incidence response protocols.
- Its platform encrypts data at rest and in transit as well as employs strong password policies and multifactor authentication for all users.
- Penetration testing is done periodically to ensure systems and protocols are providing the called-for protections.

Why GlobalPros.ai

Increases revenue and margins while decreasing costs allowing recruiters more time to nurture talent, minimize “ghosting”.

One Tech Talent Position

Provider	Source, Match Rank, Assess	Total Cost	Platform Ease of Use
